## Moving Into Year 6

Soon, I will be moving from **Year 5 to Year 6**.

This is a big step, and it's okay to have **lots of different feelings**.

I might feel **nervous**, because things will be a little different.

I might feel a bit **scared**, because I don't know exactly what to expect.

I might also feel **excited**, because I will get to learn new things, see my friends, and have new experiences.

All of these feelings are **normal** and **okay**.

In Year 6, I will have a **new teacher**. Her name is **Miss Neel**.

Miss Neel is kind and friendly. She understands that students may feel nervous at first. She might even feel nervous herself.

She will help me settle in and feel comfortable.

Some things will stay the same. I will still see my friends, use my school bag, and walk the same hallways.

Some things will be new, like our classroom, routines, and lessons.

If I feel worried, I can talk to Miss Neel, or another adult I trust. I don't have to keep my feelings inside.

Year 6 will be a place where I can **grow, learn, and feel proud**.

There will be many new exciting opportunities to get involved in. I could be a house captain, thrive at Condoval and learn about lots of new things.

It is ok to feel both nervous and excited.

I am getting older, and I am ready for this next step.

## It Will Be Okay If I Find Things Tricky in Year 6

**When I move into Year 6, I will be learning lots of new things like Maths and English.**

Sometimes, I might find these subjects tricky. That will be okay. Everyone will find something hard sometimes — even grown-ups!

**In Maths, I might get stuck on a problem or not understand it straight away.**

In English, I might find it hard to spell words, write long stories, or understand what I'm reading.

**That won't mean I'm not smart. It will just mean I need more time or a different way to learn.**

**My teacher, Miss Neel, will be there to help me.**

She will know that learning takes time. Some people will learn quickly, and others (like me) might need more practice. That's completely fine.

**If I don't understand something, I will be able to:**

- Put my hand up and ask for help
- Try first, then ask a friend or my teacher
- Use tools in the classroom, like number lines, dictionaries, or writing checklists
- Remember that mistakes will help me learn and get better

**Miss Neel will give me support when I need it.**

She might give me extra time, smaller steps, or helpful reminders. She will help me find what works best for me.

**Even if I find something hard at first, I will get better with practice.**

The more I try, the more I will learn, and the more confident I will feel.

**I won't be the only one who finds things tricky sometimes.**

Everyone will have different strengths. Some people will be good at writing, some at Maths, and some at sports or art. That will be normal.

**What will matter most is that I keep trying and don't give up.**

I will be learning every day. I will do my best — and that will be something to be proud of.

Even if I feel nervous now, I know that I will be okay.

I am excited to meet **Miss Neel** and see what **Year 6** will bring!
