

## Moving Into Year 4

Next year, I will be in Year 4.

That means I am getting older and moving up in the school

In Year 4, I will have a new classroom called sparrow and a new teacher called Mr Evans but I will still be in the same house.

Mr Evans will help me learn and feel safe and happy at school.

In Year 4, there will also be Mrs Solomon and Mrs Berry teaching robin class and Mrs Symes and Mrs Blackwell supporting.

Mr Evans will be there to greet me at the door on transition day.

My friends will be in Year 4 too. We will learn and have fun together.

One of the exciting things we will learn about is maths. This is Mr Evans favourite subject.

We will work with bigger numbers and learn new ways to solve problems.

Sometimes it might feel tricky, but that's okay! Mr Evans and my classmates will help me.

We will also learn about the Anglo-Saxons and Vikings and after Christmas we learn about the Egyptians. We will have another Christmas performance but this year we get to act it out.

In Year 4, we may go on some school trips.

School trips are when we go somewhere new with our class.

We might visit a museum, a place from history, or even go on an adventure outside.

It's okay to feel excited or nervous about moving into Year 4.

Lots of other children feel the same way.

I can ask questions and talk to Mr Evans if I need help.

Year 4 will be a year full of learning, friends, and fun!
